

## APPENDIX 13 TO THE GENERAL CONTRACT OF USE

### LIST OF REPAIRS WHICH MAY BE CARRIED OUT BY THE RU ON THE PLACE OF IMMOBILIZATION OF THE WAGON OR IN THE NEARBY VICINITY

The application of appendix 13 is neither mandatory for the RU nor may its application be demanded by the Keeper.

This list contains repair works to re-establish the running order in the scope of article 19 which may be carried out by the RU without the prior agreement of the keeper irrespective of the amount of the related costs.

If the listed repair works are not carried out on the spot where the wagon has been immobilized or in the very nearby vicinity by the operating staff, inspectors, mobile units, etc., the RU will sent the wagon to a workshop. In this case, the regular procedure of article 19.1 will be applied.

If appendix 13 is applied, the provisions set out in article 19.5 have to be complied with for the re-establishment of the running order of the wagon.
